CLIENT TESTIMONIAL FOR QUEEN CITY LAW

Davidson and Associates is a Christchurch based law firm with a wide area of practice which has utilised the services of Queen City Law for specialist services for a number of years.

We recently had a cause to retain the services of Ross Dillon in a complex construction and property matter, involving a matter of considerable importance to our client and which was extremely urgent. We issued urgent instructions to Queen City Law and Ross provided an impeccable and comprehensive written opinion that provided the solution sought by our client.

The opinion, which we were able to rely on, immediately produced the desired outcome for our client. The fact that the opinion was provided to us within the urgent time frame that we were operating under at the time was superb and it provided us with the information which we were then able to utilise to our client's benefit within the time frame which existed. I have to say that the result obtained from Ross's work would have to represent the best value for our firm that we have ever spent.

From my perspective the lawyers at Queen City Law, provide excellent strategic advice and are considered to be NZ leaders in some of their respective areas of expertise. The firm provides well structured advice in a very efficient manner and is often also able to focus on providing value added advice which is extremely significant to law firm clients.

We have absolute confidence in recommending clients to Queen City Law and in particular, Ross Dillon. We enjoy a very collegial relationship between our two firms, which I believe is of mutual benefit to our clients.

We hope to continue our relationship into the future and would certainly recommend Ross and the team at Queen City Law.

Yours faithfully
DAVIDSON & ASSOCIATES
