Dear whom it may concern

My name is Hee Seon Kweon and I was a client at Queen City Law. Bradley So was in charge of my application for Permanent Residency in New Zealand. One of my friend who is already a resident in New Zealand have introduced me to Queen City Law and told me about their excellent customer service and how hard they work to satisfy their client.

There were many difficult situation through out the process but Bradley has managed to resolve them every time. I also thank Christine Terry for helping us with my application and being there till the end. She has such a big heart and she understood how hard and stressful this was for me and my family and gave us comfort and support.

I think the trust is the most important thing and I and my family have trusted Queen City Law from start till end and I thank them for giving my family an oppertunity to start our lives in New Zealand.

Yours Sincerely,

Hee Seon Kweon
